

RECKLESS LABORATORY

OPERATIONS GUIDE · HOW TO USE THE PLATFORM

HOW IT WORKS.

A practical walkthrough for running Reckless Laboratory — Part 1 for the **admin** (managing the business), Part 2 for **customers** (how people shop). Screens are the live platform.

RECKLESS-LAB.VERCEL.APP · ADMIN LOGIN → /ADMIN · WHATSAPP CONFIRMS PAYMENT ONLY

Two sides, one system.

PART 1 · ADMIN

You run the business

Sign in at **/admin** with the admin account. View & fulfil orders, manage inventory & promotions, see customers and analytics, and reply to support.

PART 2 · CUSTOMER

People shop

Browse, search, save, add to cart and check out. They get an **order number** + **tracking number**, pay via WhatsApp, and track everything from their account.

Every order, customer, address and payment status is stored in the platform. WhatsApp is only the final payment conversation.

PART ONE

For the Admin.

Running the business from the Operational HQ.

The Operational HQ

- 01 Go to `/login` and sign in with the **admin account** — you land in the HQ automatically.
- 02 The **Overview** shows business health: revenue, orders, customers and stock at a glance.
- 03 Use the **left sidebar** to move between Orders, Products, Inventory, Promotions, Analytics, Customers and Messages.
- 04 Toggle **light / dark** and jump to the live site from the top bar.

Fulfilling an order

- 01 Search by name, order or tracking number, or filter by status chip.
- 02 Click an order to expand its **items, totals and timeline**.
- 03 Advance the **status** (New → Packaging → Shipped → Delivered) — the customer's tracking updates live.
- 04 Open **Manage** to assign a **courier + tracking number** and **print a packing slip**.
- 05 **Export CSV** for accounting or shipping.

The catalogue

- 01 See every piece — the three series and all washes — with price and status.
- 02 Review names, colourways and pricing at a glance.
- 03 Stock levels are managed in **Inventory** (next).

PRODUCT	PRICE	SOLD	STOCK
 'Reckless' Tee WASHED BLACK	\$35	0	22 LEFT
 'Identity' Tee WASHED BROWN	\$35	0	33 LEFT
 'Identity' Tee STORM GREY	\$35	0	39 LEFT
 'I Exist' Tee WASHED GREY	\$35	0	42 LEFT
 'Identity' Tee WHITE	\$30	0	50 LEFT
 'I Exist' Tee WASHED BLUE	\$30	0	51 LEFT

01 Track stock **per size** for every piece.

02 Update quantities as you receive or ship — the storefront reflects availability.

03 Spot **low-stock** sizes before they sell out.

- 01 Enter a **code** and choose a type: **% off**, **fixed amount**, or **free shipping**.
- 02 Add rules: **minimum spend**, **first-order-only**, **usage limit**, **expiry**.
- 03 **Create** — customers apply it at checkout.
- 04 Enable / disable or delete any code, and watch **usage** live.

PART TWO

For the Customer.

How people discover, buy and track — a premium shopping experience.

Finding a piece

- 01 Land on the **cinematic homepage** and scroll the drop.
- 02 Open **Shop** or a series, or use **Search** to filter by name, colour or price.
- 03 On phones, a **bottom bar** (Shop · The Lab · Search · Account · Cart) keeps it one tap away.
- 04 Tap **The Lab** for the brand exhibition.

Choosing & adding

- 01 View the piece with its own **editorial spread**, story and details.
- 02 Switch **colourway**, pick a **size**, and **add to bag** (it flies to the cart).
- 03 Or **save to wishlist** for later.
- 04 Open the **cart** and head to checkout.

Placing the order

01

Enter details

Shipping address + country (worldwide).
Apply a **promo code** if they have one.

02

Get numbers

An **order number** + **tracking number** are generated and shown. Optional 1-tap account.

03

Pay on WhatsApp

The order summary opens in WhatsApp — the team confirms stock & sends payment instructions.

The order is already saved in the platform before WhatsApp opens.

Tracking an order

The screenshot shows a web browser window with the address bar displaying 'reckless-lab.vercel.app/track'. The page header includes a 'MENU' icon, the 'RECKLESS LABORATORY' logo, and navigation links for 'SHOP', 'THE LAB', a search icon, a settings icon, 'SIGN IN', a heart icon, and a 'CART' icon with a red notification bubble. The main content area has a breadcrumb '[TRACK / YOUR ORDER]' and a large 'Track order' heading. Below the heading is a subtext: 'Enter your order number and tracking number to follow your pieces from the lab to your door.' The form contains three input fields: 'ORDER NUMBER' (with placeholder 'RL-XXXXXX'), 'TRACKING NUMBER' (with placeholder 'RL-XXXX-XXXX'), and 'EMAIL (OPTIONAL)' (with placeholder 'For extra verification'). A red 'TRACK ORDER' button is positioned below the inputs. The footer features the text 'BORATORY * IT'S NOT FOR YOU * I EXIST * EST 2'.

TRACKING NUMBER

RL-XXXX-XXXX

EMAIL (OPTIONAL)

For extra verification

TRACK ORDER

BORATORY * IT'S NOT FOR YOU * I EXIST * EST 2

- 01 Go to **Track Order** (no account needed).
- 02 Enter the **order number + tracking number** (email optional).
- 03 See the **live status timeline**, pieces, address, courier and estimated delivery.

The customer dashboard

01 Overview: active/delivered orders, wishlist, addresses at a glance.

02 Orders: full history, each with its live tracking timeline.

03 Wishlist: move saved pieces to bag.

04 Addresses: add, edit, delete, set default.

05 Settings: name, email, password.

That's the system.

Admin at **/admin** · customers shop the live site · WhatsApp confirms payment. Everything else is managed in the platform.
